Your Ref. LPS 1181: Part 1 Application  
Our Ref. TB0408-121433

Dear Alex

**Application for LPS 1181: Part 1 Issue 1 EXT-B grade approval for Brucha WP composite panels with PIR insulation**

With reference to your recent telephone call I would like to confirm that we have received application from Brucha for LPS 1181: Part 1 approval of the Brucha WP composite panels with PIR insulation.

These panels have completed a successful test to the requirements of LPS 1181: Part 1 the test report for this is currently being prepared and will be issued as soon as possible.

LPCB have conducted a factory production control (FPC) assessment for the manufacture of these products, this together with the LPCB product approval process is currently being progressed.

If you have any further questions regarding the above, please do not hesitate to contact the undersigned.

Yours sincerely

Tony Baker
