Your Ref. LPS 1181: part 1 Application  
Our Ref. TB0208-119581

Dear Alex

**Application for LPS 1181: Part 1 Issue 1 EXT-B grade approval for Brucha WP-F composite panels with mineral fibre insulation**

With reference to your recent telephone call I would like to confirm that we have received application from Brucha for LPS 1181: Part 1 approval of the Brucha WP-F composite panels with mineral fibre insulation.

These panels have completed a successful test to the requirements of LPS 1181: Part 1 the results of which are included in BRE test report number 235355 dated 21/09/2007.

LPCB have conducted a factory production control (FPC) assessment for the manufacture of these products, this together with the LPCB product certification process is currently being progressed and is in the final stages of approval.

If you have any further questions regarding the above, please do not hesitate to contact the undersigned.

Yours sincerely

Tony Baker
